Professional Summary

Result-oriented professional with over 22 years of experience in the IT industry. Experienced in Full Stack Development (Frontend to Backend), Cloud Architecture, DevOps, Automation, and BigData Engineering. Possesses deep domain experience across the Healthcare, Logistics, Retail, Finance, and Telecommunication sectors.

Technical Skills & Specialties

Specialty Areas: Cloud infrastructure design, migration, implementation, and maintenance (AWS, Azure, GCP); Cloud cost reduction; DevOps (CI/CD); Containerization (Docker, Container Registry, Kubernetes/Container Service); AI Integrations (Agentic AI, LLM); CRM (Salesforce, Marketing Cloud, Data Extensions); Test Automation and A/B Testing; Data Integrations, BigData, and Database Engineering (RDBMS, CouchDB, MongoDB).

Key Skills: Team leadership, deliverable management, estimating, scheduling, resource allocation, and expense management. Organized and facilitated Agile and Scrum ceremonies including Sprint Planning, Daily Standups, Sprint Check-In, Sprint Review, and Retrospectives. Experienced in Microservices Architecture and Mobile Development.

Languages: Backend: .Net/C#, Python, PHP, Java, Ruby, Golang, C++. Frontend: JavaScript (React, Vue, Angular), TypeScript (React, Angular), HTML, XML, CSS, Gatsby, GraphQL, StoryBook, Rollup, NodeJs, NextJs. Mobile: Xamarin, React Native, Flutter, ADK.

Software and Technologies: Frameworks: .NetCore, Django, Flask, Spark, Laravel, Lumen, Code Igniter, RoR, Xamarin. Cloud & Infrastructure: Azure, Google Cloud, AWS, Digital Ocean, Netlify, Docker, Kubernetes, Jenkins, Gitlab, Vagrant, TeamCity, Octopus. Databases & Messaging: MySQL, PostgreSQL, MsSQL, MongoDB, Redis, Apache Kafka, Amazon MQ, SNS, SQS. Testing: SpecFlow, Xunit, NUnit, PhpUnit, Codeception, Python Unittest, Puppeteer, Selenium. Servers & Design: Nginx, Apache Server, Serverless, IIS, Salesforce, Bootstrap, Material Design, Fluent Design, Rsuite.

Career Experience

LPS, New Zealand | Software Engineer | March 2019 – Present

- Client: Kotahi (October 2019 – Present): Developed milestone events integration project; implemented private node packages and common libraries; managed Azure infra changes; developed end-to-end test automation for Coastal Portal and Rate

Management; developed Event Microservices to drive automated invoice integrations with Kotahi's event management system and Microsoft 365 (M365) workflows; developed frontend for Kotahi Rate Management System and order/vessel tracking app; containerized Event Micro Services; implemented BDD testing (SpecFlow), frontend unit testing (Jest), and backend testing (Xunit); built .NET APIs and Azure Logic Apps.

- Client: Gasoline Alley Services (G.A.S) (May 2019 – August 2019): Created master test plan; managed testing/deployment of 100+ Epay terminals; provided technical support.
- Internal Projects (March 2019 – April 2019): Served as Salesforce Developer for automated deployments.

Consulting Projects (LPS)

- Heals.Asia (Cloud Architect): Managed AWS/Azure infrastructure, migrated CI/CD from Jenkins to Bitbucket, regional infrastructure setup. Designed and implemented a Node.js-based Model Context Protocol (MCP) server integration for the core patient-gateway API, establishing an extensible proxy architecture to interact with AWS Bedrock.
- Casey AI (Fullstack Engineer): Built UI for OpenAI Assistant test case generation using React/TypeScript.
- Kiwiplates.nz: Developed Black Plates Theme, Afterpay/Salesforce integrations, implemented A/B testing, applied security patches.
- IntegrationFox.com: Developed new UI and CRM integrations using React/TypeScript/Python/AWS.

Groworx, Sydney | Senior Manager for Digital Engineering | October 2018 – March 2019

- Managed Digital Engineering team; technical consultant for Data Integration/Software Solutions; managed G Suite/GCP/Apigee accounts; implemented KongHQ API management in AWS; built NLP/ML document management POC.

Capstone Medical System, Australia | Lead Software Developer | March 2016 – September 2018

- Fullstack development for Capstone v1; implemented Gitlab CI/CD; led v2 transition to hybrid web/mobile architecture; managed DevOps, Letters/Quotes, Financial, and MS Wopi modules.

Synnex Concentrix, BGC Taguig | Python Developer | November 2014 – December 2016

- Developed using Python/Django/GoLang; managed NOC Google App Engine; utilized BigQuery/Bigtable/Cassandra/ETL.

Excite Media PH, Makati | Technical Manager | October 2013 – November 2014

- Scrum Master/Lead Developer (Django); managed GAE deployments and automation testing; coordinated with Japan/Indonesia teams.

Healthway Medical, Makati City | IT Manager / R&D Officer | September 2006 – October 2013

- IT Manager (2009-2013): Managed 15-member team, 24/7 system uptime, VOIP implementation, payroll/accounting system dev.
- R&D Officer (2006-2008): Led development of text blast, clinic management, and billing/accounting systems.

HKRI Limited, Hong Kong | Senior Programmer | June 2008 – July 2009

- Developed clinic management, laboratory, and pharmacy inventory systems; database/web server maintenance.

Certifications

- Azure DevOps Certification (2023)
- Azure Developer Certification (2022)
- Azure Fundamentals Certification (2022)
- Certified UiPath Advanced RPA Developer (2019)
- Certified Apigee API Platform Specialization (2019)
- Certified John Maxwell Leader (2018)
- Certified Novell Linux Professional Administrator (2014)
- Certified ITIL Professional (2012)

Education

Bachelor of Science in Computer Science, University of Northern Philippines, Vigan, Ilocos Sur (2003)
